Special Assistance

Are there people in your household, who need extra assistance? For example: elderly people, young children, people with disabilities, or those who rely on medication.

FLOOD PREPARATION

A Guide On How To Behave In A Flood Emergency Situation

- Quarry Road West -

Why you are receiving this brochure

- You live in Quarry Road West, a flood-prone area, where **flooding can happen suddenly**
- This guide provides simple steps to **prepare and stay safe**
- Being prepared reduces panic and helps you **respond effectively**
- Keep this booklet **accessible** and ensure all household members know its contents

Before the flood

1 Emergency bag

Prepare a small bag with essentials such as documents, medicine, phone, water and basic supplies.

2 Important documents

Keep your ID, birth certificates, and other important papers together in one safe, easy-to-grab place.

3 Evacuation route

Learn and remember the designated evacuation route. Follow this route during an emergency without taking shortcuts.

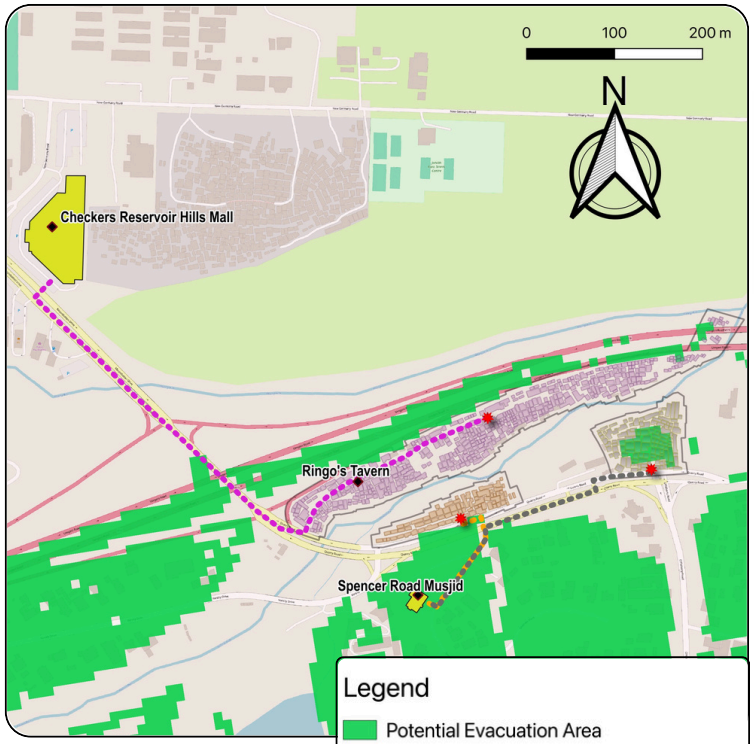
4 Family plan

Agree on a meeting point with your family so you can find each other if separated.

5 Leave before flooding starts

Leave early before flooding begins to avoid rising waters, blocked roads, and delays, ensuring safer evacuation and reducing risk to life.

Evacuation Map



Legend

- Potential Evacuation Area
- Mcondo 1 and Mcondo 2
- Mampondweni
- maMsuthu
- Evacuation route Mcondo 1 and Mcondo 2
- Evacuation route Mampondweni
- Evacuation route maMsuthu
- Possible Shelter Hub
- Sirens

How to read

- **Find your neighbourhood** on the map by matching the colour of your area.
- **Follow the route** shown in the same colour as your neighbourhood
- **Use the legend** to understand symbols like sirens, shelters, and safe zones.
- **Check direction** using the north arrow so you know which way to move.
- **Use the scale** to estimate how far you need to travel.

In a flood warning, move calmly along your marked route to the nearest safe evacuation area.

During the flood

1 Disconnect electricity and gas

Disconnect electricity and gas before leaving to reduce fire risk and prevent dangerous leaks during flooding.

2 Follow the route to the safe zone(s)

Use the designated evacuation route and do not take shortcuts.

3 Avoid swimming and contact with floodwater

Floodwater may contain sewage, chemicals, and debris that can cause illness or injury.

4 Leave other belongings behind

Do not stop to collect your possessions. Your safety comes first.

5 Stay calm and help others safely

Keep calm and move quickly. Assist others only if you can do so without putting yourself at risk. Clear thinking saves lives.
