# FLOOD PREPARATION

A Guide On How To Behave In A Flood Emergency Situation

***- Quarry Road West -***

## Why you are receiving this brochure

- You live in Quarry Road West, a flood-prone area, where **flooding can happen suddenly**
- This guide provides simple steps to **prepare and stay safe**
- Being prepared reduces panic and helps you **respond effectively**
- Keep this booklet **accessible** and ensure all household members know its contents

# Before the flood

1

**Prepare an Emergency bag**

2

**Gather important documents**

3

**Remember the evacuation route**

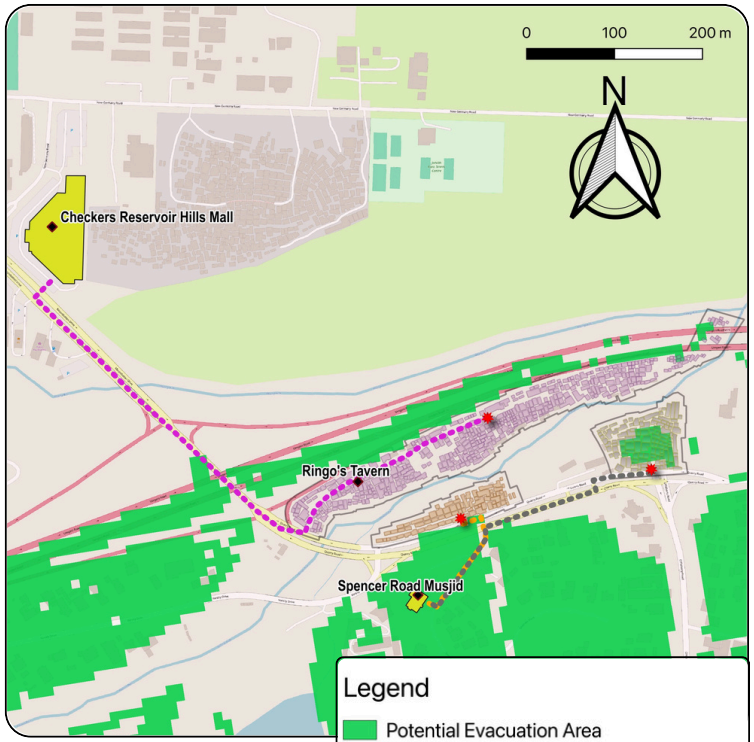
4

**Set a family meeting spot**

5

**Leave before flooding starts**

# Evacuation Map



## *How to read*

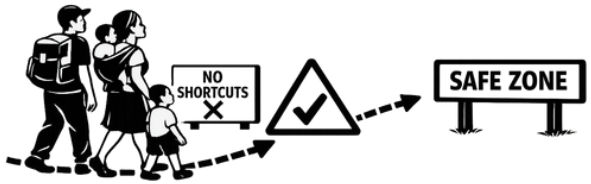
- **Find your neighbourhood** on the map by matching the colour of your area.
- **Follow the route** shown in the same colour as your neighbourhood
- **Use the legend** to understand symbols like sirens, shelters, and safe zones.
- **Check direction** using the north arrow so you know which way to move.
- **Use the scale** to estimate how far you need to travel.

*In a flood warning, move calmly along your marked route to the nearest safe evacuation area.*

# During the flood

1

**Disconnect electricity and gas**



2

**Follow the route to the safe zone(s)**

3

**Avoid contact with flood water**

4

**Leave other belongings behind**

5

**Stay calm and help others safely**
